TO THE TRADE.

We have pleasure in again presenting ourselves to your notice, through our revised Price-List for the Spring of 1881.

This Catalogue is offered for our mutual benefit, and as a book of reference, trusting that it may find its way to some favorite corner of your desk, to be called upon for such information in our line of trade as your needs may require.

As ever, we offer you the products of our manufacture at the lowest prices which honest goods can be made for. We ask in return your generous support and patronage, assuring you that your confidence in our house will never be abused.

The Patent Iron Folding Table Bedstead, of which we have become sole owners by right of purchase, and which was awarded medals by both the Centennial Commission, 1876, and the Universal Exposition, Paris, 1878, for superior excellence, will be found fully advertised on page 5.

We still continue to add new features to our metallic bedstead department, and shall be pleased at all times to send you drawings of the latest novelties received.

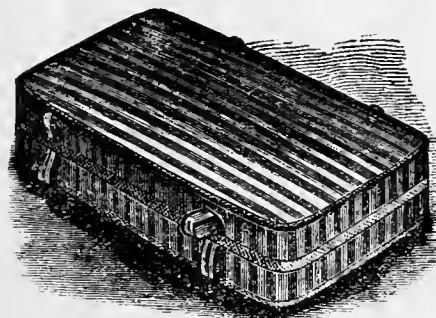

We call attention to our designs of iron bedsteads suitable for Public Institutions, which is receiving our special attention.

Very respectfully,

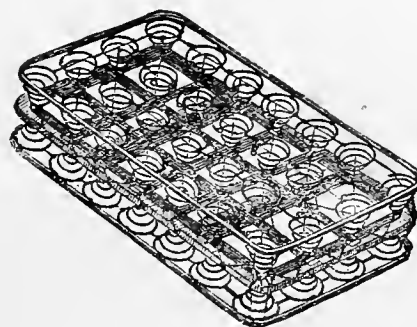

W. S. FOGG & SON.

The Reversible and Non-Reversible Spring Mattresses,

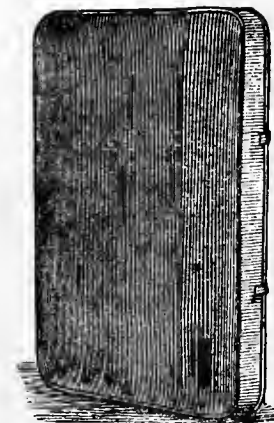

AS SUPPLIED TO HOTELS AND THE TRADE IN GENERAL.

Duplex Elliptic Reversible Spring
Mattress, Covered for Use.

In the manufacture of these Spring Mattresses we use none but the *Very Best Material* throughout. We do not aim to make a cheap spring at the sacrifice of quality, but a spring which combines the best material with the best workmanship, and which we are not ashamed to turn out of the shop with our name on it. Never, during the 15 years we have been manufacturing these Springs, has one been returned to us "out of order;" a sufficient guarantee, we think, of their excellence.

We are aware that the market is flooded with imitation beds, all claimed to be "the best;" we ask that you put ours in comparison, and then give us your verdict.

OUR UPHOLSTERED METROPOLITAN SPRING is our Metropolitan Non-Reversible Spring and Mattress combined, at a less cost than the two can be supplied separate. It offers a very comfortable bed, particularly when upholstered in all hair, and is peculiarly adapted for hotels and boarding houses.

OUR FOLDING BOLSTER SPRING BED is a Box Spring, folding twice, as shown in cut, and with a ratchet to allow the head-piece to be used at any required elevation, thus acting as substitute for a bolster. The top is covered with heavy drilling.

We use no HALF SPRING in any bed we manufacture; whole springs only are employed, and these of the best crucible steel wire. We will manufacture any style of bed to order at the shortest notice.

FOGG'S PATENT IRON FOLDING TABLE BEDSTEAD,

MOST PERFECT AND ECONOMICAL FOLDING BEDSTEAD MADE.

Bronze Medals awarded by U. S. Centennial Commission, 1876, and International Exposition, Paris, 1878.

Patented 1870.

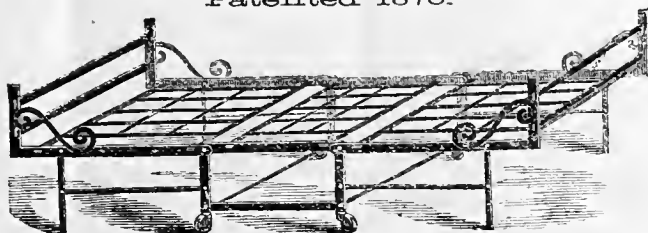

Fig. 1.—Fogg's Iron Folding Bedstead—Open, without Table.

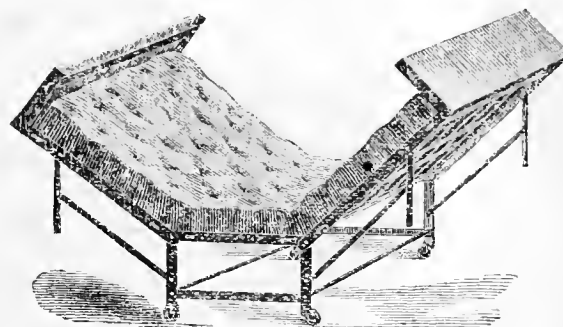

Fig. 2.—Bedstead Half Open, showing Mattress and Table.

These bedsteads are made of the best wrought iron, are strong, light and neat, and possess advantages of the highest order. To form the table, the head and feet are fitted with handseamed grained black walnut, which unite, when the bedstead is closed, as shown in Figs. 2 and 3. In simplicity of construction, they have no equal, combining great strength with lightness, and are absolutely free from any possibility of getting out of order. In point of space they occupy no more than an ordinary table, and accommodate with perfect ease the mattress, pillows, and all the bedding, the whole being concealed in the day time by a simple valance or table

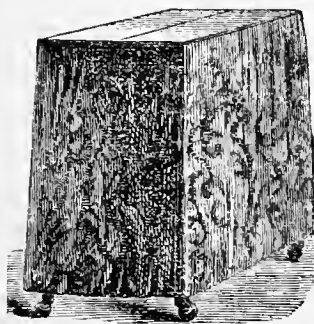

Fig. 3.—Bedstead Closed, showing Table and Valance for use in day time.

cover, as shown in Fig. 3. Their perfect cleanliness and hygienic properties are points that should be carefully noted; also their admitting of perfect ventilation of the bedding, combine to so admirably adapt them for use in southern or warm climates. In the matter of cost, we have a telling advantage over any wooden Folding Bedstead made, a fact which will be duly considered by buyers. These bedsteads are invaluable where cleanliness, health, and economy of space and money are to be considered; and we believe that the Trade will find them an active and indispensable article of stock.

CLARE FIBRE.

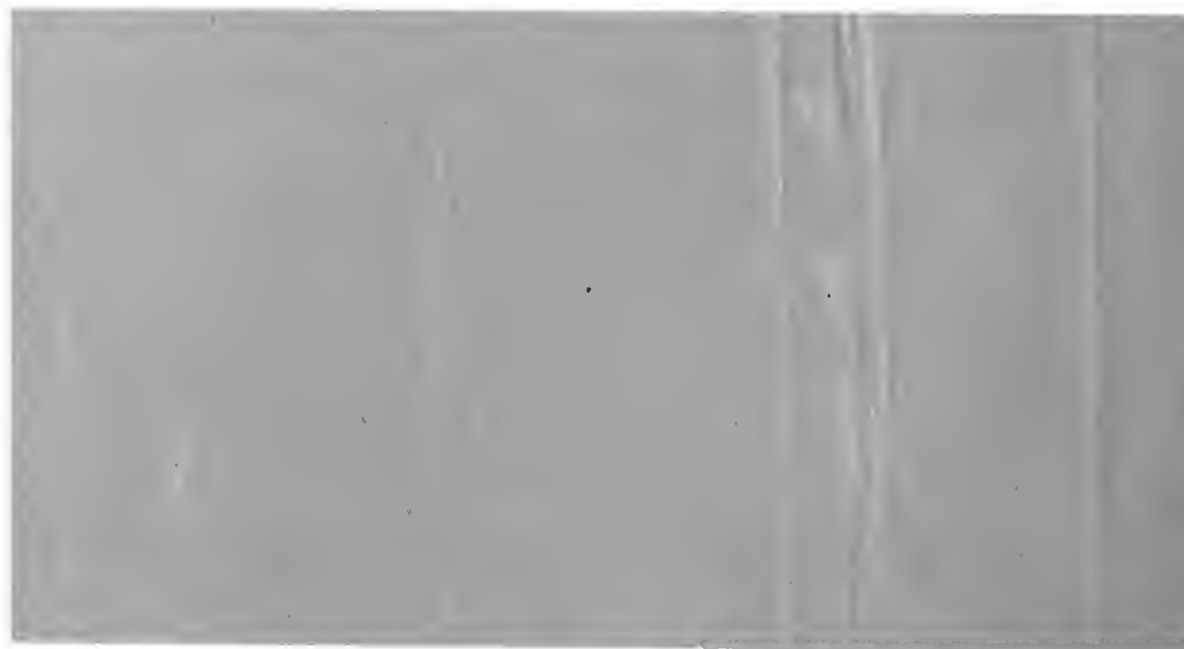

This new Fibre is fast becoming known as one of our **BEST**, and is destined to become one of our **MOST POPULAR** Cheap Bedding Materials.

In the process of manufacture, the gums, which render the crude leaf brittle and of too rank an odor for use, are removed, so that a strong, tough Fibre is produced, which does not **BREAK** or **DUST DOWN**, and which has a short, crisp curl, giving it the greatest **STRENGTH** and **ELASTICITY**.

It is absolutely **PURE** and **CLEAN**, and makes a most comfortable bed. It is specially adapted for Summer Hotels and Boarding Houses, and is recommended by Physicians for **HOSPITAL** use and for **RHEUMATIC** and **FEVER** patients.
